AUTOMATION

Eliminate the burden of manually collecting and interpreting static data with a continuous, real-time data solution.

CONSOLIDATION

Aggregate and normalize critical driver and vehicle data to improve workflow efficiencies and make informed decisions.

CROSS-DEPARTMENTAL VISIBILITY

Collaborate cross-departmentally via intelligent user permissions that match your divisional and corporate structures.

VIOLATION, CRASH AND CLAIMS REDUCTION

Decrease costly incidents and crashes with continuous visibility into risky behaviors and tools to improve safety.

RETENTION

Combat driver disqualification and high turnover with real-time data that allows pre-disqualification coaching and interventions.

COMPLIANCE

Reduce liability and relieve the heavy burden of static data that ultimately puts your company's compliance at risk.

COMPETITIVE INSURANCE RENEWALS

Discover long-term premium savings from reduced exposure and carriers that value the use of risk-mitigating solutions.

BRAND PROTECTION

Gain an extra layer of protection with your top-tier safety program and documented processes for legal reinforcement.
