

aINSIGHT® Appoints Wilma Orozco as NoMoreForms™ Product Manager

Wilma's unique understanding of the insurance regulatory framework gives her a diverse perspective on current licensing, carrier contracting, and appointment processes.

NEW PORT RICHEY, Fla., August 12, 2022 (NewsWire.com) -

Holding various positions during her 30 + year career in the insurance industry, Wilma has vast experience in the distribution channel and as an insurance regulator. Wilma's unique understanding of the insurance regulatory framework gives her a diverse perspective on current licensing, carrier contracting, and appointment processes.

Her career began in the 90s as a life and health insurance agent and she later served as Principal Officer of the Licensee Services Unit at the Puerto Rico Office of the Commissioner of Insurance for more than a decade. During her time at the OCI, she obtained the NAIC Associate in Professional Insurance Regulator designation and attended NIPR Summits and NAIC meetings representing the OCI. She also has experience working at a TPA, an FMO, and served as a Public Affairs Specialist for the Puerto Rico Army National Guard. Wilma spent her college years at the University of Puerto Rico, where she completed a Bachelor of Art in Psychology, coursework towards a Master in Public Administration, and obtained a J.D. from their School of Law.

"We are very excited to have Wilma on board," said Johnny Bitar, President & CEO of aINSIGHT. "We believe she is ideal for managing NoMoreForms' next chapter of growth and success in the insurance industry. NoMoreForms is a limitless SaaS solution; a chameleon solution that can be transformed to automate any business process an organization can dream of." Wilma added, "Joining the aINSIGHT team as their Insurance and NoMoreForms Product Manager is a great opportunity. The culture and the work ethic at Ai is outstanding."

NoMoreForms is more than just document management. We provide insurance carriers with an automated onboarding, contracting, licensing, and appointment system that interfaces with NIPR and Legacy systems to ensure efficient workflow and process management. With our open API, the system can be integrated to any system. The system can be accessed anywhere, anytime on any device an easy electronic signature.

Producers "choose their own adventure", completing only the paperwork necessary for contract and appointment. The system is fast, efficient, and easy-to-use with automated forms, PDB bumps, monitoring, background checks, and appointments. Producers can access financial services with ABA bank validation and self-pay functionality.

Insurance entities can configure the platform to their branding specification, track producer onboarding progress, set conditional onboarding requirements (AHIP, Resident/Non-Resident Licensing, etc.) and configure multiple workflows that suit their business needs (FMO, MGA, IMO, Captive, Agency, Broker, etc.). Our client experience dedicated customer service support and access sophisticated business intelligence reports and analytics to ensure their programs operate with the highest level of efficiency.
